

## Risk Prevention and Management

### GRI Disclosure Table by Thematic Area

Standard	Disclosures & Requirements	Cross - reference & Data	GRI Sector Standard	CSRD (ESRS interoperability/ assurance)	GRI assurance																										
205-1	Operations assessed for risks related to corruption	Annual Financial Report 2024 <a href="#">p. 122</a>  In preparing the annual audit program, the Internal Audit Division shall consider compliance issues and plan compliance-related audits. Corruption issues are also considered when conducting audits. 100% of the Group's organizational units are screened for corruption related risks, following a standardized internal inspection process, and the process is also in line with the Group's Code of Conduct. Audits carried out in 2024 did not identify any significant deviations in the application of the Group's Policies, Regulations, and Procedures.	11.20.2	ESRS G1 G1-3-AR 5																											
306-3	Total number and volume of significant spills	Annual Financial Report 2024 <a href="#">p. 122</a>  The evolution of the PSER index, including spills, is presented in detail in <a href="#">Annual Financial Report 2024</a> ESRS S1 - Own Workforce and in disclosure 11.8.3.	11.8.2	Pollution of air', 'Pollution of water', and 'Pollution of soil' are sustainability matters for E2 covered by ESRS 1 AR 16.
